Draws on more than forty interviews with Steve Jobs, as well as interviews with family members, friends, competitors, and colleagues to offer a look at the co-founder and leading creative force behind the Apple computer company.

" Lovely and surprising . . . This delightful book is about finance, creative genius, workplace harmony, and luck. " —Fortune " Enchanting. " —New York Times " I love this book! I think it is brilliant. " —Ed Catmull, cofounder and president of Pixar Animation, president of Disney Animation, and coauthor of the bestseller Creativity Inc. The revelatory saga of Pixar ' s rocky start and improbable success After Steve Jobs was dismissed from Apple in the early 1990s, he turned his attention to a little known graphics company he owned called Pixar. One day, out of the blue, Jobs called Lawrence Levy, a Harvard trained lawyer and executive to whom he had never spoken before. He hoped to persuade Levy to help him pull Pixar back from the brink of failure. This is the extraordinary story of what happened next: how Jobs and Levy concocted and pulled off a highly improbable plan that transformed Pixar into one of Hollywood ' s greatest success stories. Levy offers a masterful, firsthand account of how Pixar rose from humble beginnings, what it was like to work so closely with Jobs, and how Pixar ' s story offers profound lessons that can apply to many aspects of our lives. " Part business book and part thriller—a tale that ' s every bit as compelling as the ones Pixar tells in its blockbuster movies. It ' s also incredibly inspirational, a story about a team that took big risks and reaped the rewards . . . I loved this book and could not put it down. " —Dan Lyons, best-selling author of Disrupted " A natural storyteller, Levy offers an inside look at the business and a fresh, sympathetic view of Jobs. " —Success Magazine An Amazon Best Book of 2016 in Business & Leadership • A top pick on Fortune ' s Favorite Booksof 2016 • A 2017 Axiom Business Book Award winner in Memoir/Biography

The #1 New York Times bestselling biography of how Steve Jobs became the most visionary CEO in history. Becoming Steve Jobs breaks down the conventional, one-dimensional view of Steve Jobs that he was half-genius, half-jerk from youth, an irascible and selfish leader who slighted friends and family alike. Becoming Steve Jobs answers the central question about the life and career of the Apple cofounder and CEO: How did a young man so reckless and arrogant that he was exiled from the company he founded become the most effective visionary business leader of our time, ultimately transforming the daily life of billions of people? Drawing on incredible and sometimes exclusive access, Schlander and Tetzeli tell a different story of a real human being who wrestled with his failings and learned to maximize his strengths over time. Their rich, compelling narrative is filled with stories never told before from the people who knew Jobs best, including his family, former inner circle executives, and top people at Apple, Pixar and Disney, most notably Tim Cook, Jony Ive, Eddy Cue, Ed Catmull, John Lasseter, Robert Iger and many others. In addition, Schlander knew Jobs personally for 25 years and draws upon his many interviews with him, on and off the record, in writing the book. He and Tetzeli humanize the man and explain, rather than simply describe, his behavior. Along the way, the book provides rich context about the technology revolution we've all lived through, and the ways in which Jobs changed our world. A rich and revealing account, Becoming Steve Jobs shows us how one of the most colorful and compelling figures of our times was able to combine his unchanging, relentless passion with an evolution in management style to create one of the most valuable and beloved companies on the planet.

A graphic biography about the creator of Apple--Cover.

From the legendary founder of Atari and Chuck E. Cheese ' s and Steve Jobs ' s first boss, the secrets to finding, hiring, keeping, and nurturing creative talent. The business world is changing faster than ever, and every day your company faces new complications and difficulties. The only way to resolve these issues is to have a staff of wildly creative people who live as much in the future as the present, who thrive on being different, and whose ideas will guarantee that your company will prosper when other companies fail. A celebrated visionary and iconoclast, Nolan Bushnell founded the groundbreaking gaming company Atari before he went on to found Chuck E. Cheese ' s and two dozen other companies. He also happened to launch the career of the late Steve Jobs, along with those of many other brilliant creatives over the course of his five decades in business. With refreshing candor, keen psychological insight, and robust humor, Bushnell explains in Finding the Next Steve Jobs how to think boldly and differently about companies and organizations—and specifically the people who work within them. For anyone trying to turn a company into the next Atari or Apple, build a more creative workforce, or fashion a career in a changing world, this book will enlighten, challenge, surprise, and amuse.

From the acclaimed Vanity Fair and GQ Journalist—an unprecedented, in-depth portrait of the man whose return to Apple precipitated one of the biggest turnarounds in business history. With a new epilogue on Apple ' s future survival in today ' s roller-coaster economy, here is the revealing biography that blew away the critics and stirred controversy within industry and media circles around the country.

Revealing the real Steve Jobs, the mother of his first child paints an intimate portrait of an idealistic young man who was driven to change the world, who denied his own child and who mistook power for love. 100,000 first printing.

A frank, smart and captivating memoir by the daughter of Apple founder Steve Jobs. Born on a farm and named in a field by her parents—artist Chrisann Brennan and Steve Jobs—Lisa Brennan-Jobs ' s childhood unfolded in a rapidly changing Silicon Valley. When she was young, Lisa ' s father was a mythical figure who was rarely present in her life. As she grew older, her father took an interest in her, ushering her into a new world of mansions, vacations, and private schools. His attention was thrilling, but he could also be cold, critical and unpredictable. When her relationship with her mother grew strained in high school, Lisa decided to move in with her father, hoping he ' d become the parent she ' d always wanted him to be. Small Fry is Lisa Brennan-Jobs ' s poignant story of childhood and growing up. Scrappy, wise, and funny, young Lisa is an unforgettable guide, marveling at the particular magic of growing up in this family, in this place and time, while grappling with her feelings of illegitimacy and shame. Part portrait of a complex family, part love letter to California in the seventies and eighties, Small Fry is an enthralling story by an insightful new literary voice.

A riveting biography of the groundbreaking innovator who was a giant in the worlds of computing, music, filmmaking, design, smart phones, and more. A finalist for the YALSA Excellence in Nonfiction Award! "Your time is limited. . . have the courage to follow your heart and intuition." —Steve Jobs From the start, his path was never predictable. Steve Jobs was given up for adoption at birth, dropped out of college after one semester, and at the age of twenty, created Apple in his parents' garage with his friend Steve Wozniack. Then came the core and hallmark of his genius—his exacting moderation for perfection, his counterculture life approach, and his level of taste and style that pushed all boundaries. A devoted husband, father, and Buddhist, he battled cancer for over a decade, became the ultimate CEO, and made the world want every product he touched, from the Macintosh to the iPhone, from iTunes and the iPod to the Macbook. Critically acclaimed author Karen Blumenthal takes us to the core of this complicated and legendary man while simultaneously exploring the evolution of computers. Framed by Jobs' inspirational Stanford commencement speech and illustrated throughout with black and white photos, this is the story of the man who changed our world. Read more thrilling nonfiction by Karen Blumenthal: Hillary Rodham Clinton: A Woman Living History (A YALSA Excellence in Nonfiction Award Finalist) Bootleg: Murder, Moonshine, and the Lawless Years of Prohibition Tommy: The Gun That Changed America Praise for Steve Jobs: The Man Who Thought Different: A Biography: " This is a smart book about a smart subject by a smart writer. " —Booklist, starred review " Students who know Steve Jobs only through Apple's iTunes, iPhones, iPads will have their eyes opened by this accessible and well-written biography. " —VOYA " An engaging and intimate portrait. Few biographies for young readers feel as relevant and current as this one does. " —The Horn Book Magazine " A perceptive, well-wrought picture of an iconic figure. " —Kirkus Reviews " Blumenthal crafts an insightful, balanced portrait. " —Publishers Weekly

Welcome to the mind—to the world—of Fake Steve Jobs. Fake Steve the counterintuitive management guru: " Obviously we can ' t literally put our employees ' lives at risk. But we have to make them feel that way. " Fake Steve the celebrity hobnobber: " I like Bono. He ' s the only person I know who ' s more self-absorbed than I am. " Options is the book that had the critics howling—with laughter: " A voice for our own digital age....Mac-slappingly funny. " —Newsweek.com " Hilarious. " —New York Times " There ' s a laugh-out-loud moment on nearly each one of the book ' s pages. " —Wall Street Journal " Wickedly funny. " —San Francisco Chronicle
