Like many women with attention deficit/hyperactivity disorder (ADHD), journalist and popular blogger Zoë Kessler was diagnosed late in life—well into adulthood, in fact. But instead of seeing this label as a burden to bear, Kessler decided to use it to gain a better understanding of herself, and to connect with others through her writing. In this unique and engaging memoir, Kessler shares her own stories of living with ADHD in a way that is relatable, but never predictable. Inside, she describes how her impulsive behavior has affected her love life; how being disorganized once stood in the way of landing a job; and how inattentiveness has caused certain challenges in her relationships. Kessler also offers key coping skills based on her experience; skills that you can use to focus your energy, become more organized, and boost your self-esteem while tapping into creativity and humor. Kessler ' s story illustrates how being diagnosed with ADHD late into adulthood can be bewildering, but it also shows what a great opportunity it can be to take stock of your life and make real, lasting changes. Whether you share her diagnosis of ADHD, or just like a good story, ADHD According to Zoë will inspire you and encourage you to embrace your quirks. In this unique and engaging memoir, journalist and popular blogger Zoe Kessler shares her own story of being diagnosed with ADHD in her late 40s. Throughout the book she offers readers key coping skills based on her experience; skills that can help readers focus their energy, become more organized, and boost their self-esteem while tapping into creativity and humor.

Blake Taylor's mother first suspected he had ADHD when he, at only three years of age, tried to push his infant sister in her carrier off the kitchen table. As time went by, Blake developed a reputation for being hyperactive and impulsive. He launched rockets (accidentally) into neighbor's swimming pools and set off alarms in museums. Blake was diagnosed formally with ADHD when he was five years old. In ADHD and Me, he tells about the next twelve years as he learns to live with both the good and bad sides of life with ADHD.

Authored by luminaries in the special education field, EDUCATING EXCEPTIONAL CHILDREN introduces readers to each of the thirteen disability categories, and to the needs of children who are gifted and talented. The fourteenth edition continues to focus on the strengths of previous editions, while also providing new material about such important hot topics as genetics, neurology, inclusion, assistive technology, and information processing. The book provides key, research-based teaching methods and strategies for children with various exceptionalities, and also offers analysis of ecological factors that influence the exceptional child in and out of the classroom. This edition also features a new chapter on children with ADD/ADHD, new diagnosis information from the DSM-5, coverage of CEC and Common Core State Standards, the most current teaching techniques for each category, and current coverage of the Response to Intervention Model. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Bringing together leading authorities, this much-needed volume synthesizes current knowledge about the nature, impact, and treatment of attention-deficit/hyperactivity disorder (ADHD) in the crucial developmental period of adolescence. Contributors explore the distinct challenges facing teens with ADHD as they navigate intensifying academic demands; new risks in the areas of driving, substance use, and romantic relationships; and co-occurring mental health problems. Best practices in clinical assessment are presented. Chapters on treatment--several of which include illustrative case examples--review interventions targeting motivation, executive functioning, and homework problems, as well as applications of cognitive-behavioral therapy and mindfulness. The book also examines medication issues specific to this age group.

Three generations of women strive for real freedom in this startling, provocative novel exploring sexuality, gender, and maternal ambivalence, from the acclaimed author of The Best Kind of People. " Whittall addresses motherhood and autonomy in ways I've never seen done before. A fascinating stunner of a novel, The Spectacular is exactly that: spectacular! " —Kristen Arnett, author of With Teeth It ' s 1997 and Missy is a cellist in an indie rock band on tour across America. At twentytwo years old, she gets on stage every night and plays the song about her absent mother that made the band famous. As the only girl in the band, she ' s determined to party just as hard as everyone else, loving and leaving a guy in every town. But then she meets a tomboy drummer who is hard to forget, and a forgotten flap of cocaine strands her at the border. Fortysomething Carola is just surfacing from a sex scandal at the yoga center where she has been living when she sees her daughter, Missy, for the first time in ten years—on the cover of a music magazine. Ruth is eighty-three and planning her return to the Turkish seaside village where she spent her childhood. But when her granddaughter, Missy, winds up crashing at her house, she decides it ' s time that the strong and stubborn women in her family find a way to understand one another again. In this sharply observed novel, Zoe Whittall captures three very different women who each struggle to build an authentic life. Definitions of family, romance, gender, and love will radically change as they seek out lives that are nothing less than spectacular.

From the bestselling author of the classic book on ADD, *Driven to Distraction*, a memoir of the strange upbringing that shaped Dr. Edward M. Hallowell's celebrated career. When Edward M. Hallowell was eleven, a voice out of nowhere told him he should become a psychiatrist. A mental health professional of the time would have called this psychosis. But young Edward (Ned) took it in stride, despite not quite knowing what "psychiatrist" meant. With a psychotic father, alcoholic mother, abusive stepfather, and two so-called learning disabilities of his own, Ned was accustomed to unpredictable behavior from those around him, and to a mind he couldn't always control. The voice turned out to be right. Now, decades later, Hallowell is a leading expert on attention disorders and the author of twenty books, including *Driven to Distraction*, the work that introduced ADD to the world. In *Because I Come from a Crazy Family*, he tells the often strange story of a childhood marked by what he calls the "WASP triad" of alcoholism, mental illness, and politeness, and explores the wild wish, surging beneath his incredible ambition, that he could have saved his own family of drunk, crazy, and well-intentioned eccentrics, and himself. *Because I Come from a Crazy Family* is an affecting, at times harrowing, ultimately moving memoir about crazy families and where they can lead, about being called to the mental health profession, and about the unending joys and challenges that come with helping people celebrate who they are. A portion of the author's proceeds of this book will go to NAMI (National Alliance on Mental Illness).

In what passes for an ordinary day in a psych ward, Dr. Zoe Goldman is stumped when a highly unusual case arrives. A young African American girl, found wandering the streets of Buffalo in a catatonic state, is brought in by police. No one has come forward to claim her, and all leads have been exhausted, so Zoe's treatment is the last hope to discover the girl's identity. When drugs prove ineffective and medical science seems to be failing, Zoe takes matters into her own hands to track down Jane Doe's family and piece together their checkered history. As she unearths their secrets, she finds that monsters hide where they are least expected. And now she must solve the mystery before it is too late. Because someone wants to make sure this young girl never remembers. *The Girl Without a Name* is a powerful novel of memory and forgetting, of unexpected friendship and understanding...and of the secrets we protect no matter the consequences.
