Albert Mehrabian's 7-38-55 Rule of Personal Communication October 4, 2008 By Nagesh Belladi: In communication, a speaker's words are only a fraction of his efforts. The pitch and tone of his voice, the speed and rhythm of the spoken word, and the pauses between those words may express more than what is being communicated by words alone.

Albert Mehrabian's 7-38-55 Rule of Personal Communication

Albert Mehrabian's 7-38-55 rule is a theory that seeks to quantify how much of meaning is communicated via verbal and nonverbal communication methods. As a negotiator, learning how to apply the 7-38-55 rule in a negotiation situation will help you understand what your negotiating partners are communicating and better control your own messaging.

How to Use the 7-38-55 Rule to Negotiate Effectively ...

Albert Mehrabian's 7-38-55 Communication model says that only 7% of communication takes place through the words we use, while 38% takes place through tone and voice and the remaining 55% of communication take place through the body language we use. Summary by The World of Work Project The World of Work Podcast

Mehrabian's 7-38-55 Communication Model: It's More Than ...

Albert Mehrabian 's Communication model: 7  $\cup$  38  $\cup$  55 We communicate globally with one another by means of language, gestures, signs and pictograms. It is almost impossible not to communicate. To get a better understanding of communication, professor of psychology Albert Mehrabian studied the importance of non-verbal communication in the 1970s.

What is the Communication Model by Albert Mehrabian ...

7-38-55 rule is based on two studies by Albert Mehrabian, from the University of California, in 1967 that clearly demonstrated that the impact and credibility of any communicative act mainly depends on: 55% - Body language, 38% - Paralinguistic (eg. tone of voice) 7% - Words/message.

ProjectManagement.com - 7-38-55 (Mehrabian's Rule)

Sharing is caring! Silent Messages, a book published in 1971 by a writer  $\cup$  Albert Mehrabian  $\cup$  talks about the 7% rule, the non-verbal attribute in the speech or a conversation . The analysis was done on the basis of sample conducted on different salespersons. It was concluded that 55 percent weight attributes to the speaker's body language, 38 percent to the voice tone and only 7 percent of credibility assessment is given to the salesperson's actual words.

The 7% Rule - Non Verbal Communication Principle

The source is Professor Emeritus of Psychology (UCLA) Albert Mehrabian's publications on the relative importance of verbal and nonverbal messages. In his studies, Mehrabian comes to two conclusions. First, there are three main elements in face-to-face communication: words, tone of voice, and nonverbal behaviour.

Stop misusing the  $\cup$  7-38-55 Rule  $\cup$  Selection Criteria

Mehrabian's findings on inconsistent messages of feelings and attitudes (the "7%-38%-55% Rule") are well-known, the percentages relating to relative impact of words, tone of voice, and body language when speaking. Arguably these findings have been misquoted and misinterpreted throughout human communication seminars worldwide.

Albert Mehrabian - Wikipedia

Mehrabian and Ferris (1967) provides the original source of the 7%-38%-55% misquote: It is suggested that the combined effect of simultaneous verbal, vocal and facial attitude communications is a weighted sum of their independent effects -- with the coefficients of .07, .38, and .55, respectively.

Mehrabian's communication study - Changing minds

The 'Mehrabian formula' (7%/38%/55%) was established in situations where there was incongruence between words and expression. That is, where the words did not match the facial expression: specifically in Mehrabian's research people tended to believe the expression they saw, not the words spoken.

Mehrabian's Communication Theory  $\cup$  BusinessBalls.com

In 1971, Albert Mehrabian published a book Silent Messages, in which he discussed his research on non-verbal communication. He concluded that prospects based their assessments of credibility on factors other than the words the salesperson spoke—the prospects studied assigned 55 percent of their weight to the speaker's body language and another 38 percent to the tone and music of their voice ...

Ubiquity: The 7% rule

The 7-38-55% communication rule Mehrabian developed a key interest in the role of nonverbal communication and its impact during face-to-face exchanges in the 1960s where he developed the often used (and misunderstood) 7-38-55% rule. This was the culmination of two pioneering studies conducted in 1967.

Albert Mehrabian's 7-38-55 Rule - YouTube

According to Albert Mehrabian's 7-38-55 rule, words are not everything when it comes to communication, infact the elements of personal communication are, 7% spoken words, 38% voice, tone, 55% body language. So this study proves that a speaker's words are only a fraction of the entire communication. The pitch and tone of voice, the speed and rhythm of the spoken words and the pauses between those words may express more than what is being communicated by words alone.

Albert Mehrabian's 7-38-55 Rule | PMC Lounge

Total Liking = 7% Verbal Liking + 38% Tonal Liking + 55% Facial Liking On his website, Albert Mehrabian himself has stated: Please note that this and other equations regarding relative importance of verbal and nonverbal messages were derived from experiments dealing with communications of feelings and attitudes (i.e., like-dislike).

The Truth about the Communication Formula  $\cup$  55/38/7 - EIA
