Originally published in 1999, A New China has become a standard textbook for intermediate Chinese language learning. This completely revised edition reflects China's dramatic developments in the last decade and consolidates the previous two-volume set into one volume for easy student use. Written from the perspective of a foreign student who has just arrived in China, the textbook provides the most up-to-date lessons and learning materials about the changing face of China. The first half of the book follows the life of an exchange student experiencing Beijing for the first time. Chinese language students are guided step-by-step through the stages of arriving at the airport, going through customs, and adjusting to Chinese university dormitories. The revised edition includes new lessons on daily life, such as doing

This early work by G. K. Chesterton was originally published in 1908. Gilbert Keith Chesterton was born in London in 1874. He studied at the Slade School of Art, and upon graduating began to work as a freelance journalist. Over the course of his life, his literary output was incredibly diverse and highly prolific, ranging from philosophy and ontology to art criticism and detective fiction. However, he is probably best-remembered for his Christian apologetics, most notably in *Orthodoxy* (1908) and *The Everlasting Man* (1925). We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

provoke classroom discussion, each topic is treated by essayists with opposing views. Prepared for American students who have already completed two years of Chinese and who are interested in reading original documents, the book juxtaposes traditional and simplified characters for the text and vocabulary so that students can be exposed to both versions of Chinese characters. Each of the thirteen texts is followed by a detailed glossary, annotated in English, with suggested topics for class discussion. An index at the end of the book allows students easy access to the vocabulary items. Audio and video materials are available for use with this text.
