0672324806.ld The definitive guide to the latest version of Borlands powerful C++Builder. Provides complete coverage of C++Builder Web Services development, now a key component of C++Builder. Borland C++Builder remains best in class IDE over the past 5 years for C++ solutions. Written by a team of top C++Builder experts with expertise in a variety of technical areas related to C++ application development. C++Builder 6 Developers Guide is revised for the latest version of C++Builder, the biggest update to C++Builder in years. C++Builder is an ANSI C++ IDE. The version 6 adds BizShape, a tool to build Web Services using XML/SOAP, .NET, and BizTalk from Microsoft, and SunONE from Sun Microsystems. Other new components include WebSnap for Web application development, DataSnap for database development, and CLX, which allows cross-platform development for Unix and Linux. The new NetCLX Internet components allow development of cross-platform applications with Apache, Microsoft IIS, and Netscape Web Server applications. C++Builder 6 Developers Guide continues as the definitive guide for Borlands C++Builder, providing a clear and concise reference for C++ developers. C++Builder Developers Guide is a unique combination of over 35 C++Builder experts from around the globe. This team brings hundreds of thousands of working hours in professional software development to the creation of this extensive work. Leading the team are Jarrod Hollingworth, Bob Swart, Mark Cashman. and Paul Gustavson. Jarrod is running Backslash (http://www.backslash.com;au), loping software applications for the Internet and key business sectors and working as a software development consultant. Bob (aka. Dr.Bob) is an internationally recognized UK Borland Connections member and an independent technical author, trainer, and consultant using C++Builder, Kylix, and Delphi based in The Netherlands. Mark Cashman is an independent C++ developer in the U.S. Paul Gustavson lives in Virginia and is a senior systems engineer for Synetics, Inc., a U.S.-based company providing knowledge management, systems engineering, and enterprise management services.

C++ Builder 5 is an integrated development enviroment for building standalone, client/server, distributed and Internet-enabled Windows applications. This resource provides an introduction to the operation of the Intergrated Development Enviroment (IDE), the various tools, the debugger, the C++ language and libaries. It also gives coverage of the standard template library (STL) and Windows programming.

Library Juice Concentrate is a compilation of the best of Library Juice, an e-zine published by Rory Litwin between 1998 and 2005 that dealt with foundational questions of librarianship during a period of rapid change. Library Juice served as the record for the "library left" during this period, including its veterans and newcomers, while at the same time offering original reflections on traditional questions. The book includes essays and other artifacts that investigate professional neutrality, intellectual freedom, alternative literature, the social effects of technological change, the cultural identity of the librarian, "anarchist librarianship," the Cuba debate, Google's scanning project, subject heading reform, and other issues. The aim of the essays in Library Juice Concentrate is to provoke original thought and to encourage newcomers in the field to participate in professional discourse with confidence and with attention to the intellectual and political struggles of the past.

Best-selling author Scott Kelby is well known for his plain-English style, his humorous tone, and his unparalleled ability to cut through all the technical jargon that other authors use when writing about image-editing programs. Here, Scott delivers great techniques on Photoshop Elements 5 that his readers understand and use to make the best possible images. With this newest release of Photoshop Elements, Scott shows readers how to work with their images like a pro, from importing to organization to correction to output. Readers will learn all they need to know about the digital photography workflow, as well as the latest secrets of the pros to help them create the best special effects, apply the most useful sharpening techniques, and avoid many of the hassles and problems that are encountered in digital photography (such as digital noise and color halos).

The PEAR Installer maintainer shows you the power of this code management and deployment system to revolutionize your PHP application development

This innovative book argues that new insights on education and psychosocial aspects surface when research in the realm of HIV & AIDS is viewed through a positive psychology lens.

In recent years, challenges to what gets read, taught, and learned in schools have increased. With the aim of protecting the academic freedom of individuals and groups across political and religious spectrums, the authors, along with noted authorities in education, consider how schools respond to these challenges. The authors include a case study of a school district embroiled in a dispute about the progressive philosophy and practices at an elementary school. They also examine the legal and pedagogical implications that accrue, and offer educators strategies for addressing challenges and censorship issues that may arise in their districts and classrooms.

From her birth in Chipping Sodbury near Bristol, England, to the stories about her favorite teachers, to the funny misunderstanding in her first fan letter, the life of the author of the Harry Potter books is revealed. Original. 250,000 first printing.
