Building A Dune Buggy The  
To build a dune buggy from scratch,  
purchase a type 1 Volkswagen Beetle,  
and buy the parts you will need to  
create the dune buggy, like the tires,  
exhaust, suspension, shocks, and  
springs. Place the Beetle on jacks in a  
garage so you can work on it, and  
remove all of the parts from the car  
besides the frame, engine,  
suspension, steering wheel, tires,  
brakes, and driver's seat.

## Building a Dune Buggy - The Essential Manual: Everything ...

Most chassis and suspension components can be taken from the “donor” car to build your new buggy. Our tube dune buggy and sandrail chassis are designed to use the suspension components from Volkswagen (Type 1) Beetles up to 1977 (excluding Super Beetle—rear torsion housing from a Super Beetle can be used, but the MacPherson strut front suspension is incompatible with our chassis).
