#### Characteristics Of Waves Answer Key

Thank you extremely much for downloading characteristics of waves answer key. Maybe you have knowledge that, people have see numerous time for

their favorite books subsequently this characteristics of waves answer key, but end up in harmful downloads.

Rather than enjoying a good ebook subsequently a mug of coffee in the afternoon, instead they juggled afterward some harmful virus inside their computer.

Answer: Because waves move through space, they must have a velocity. The velocity of a wave is a function of the type of wave, and the medium it travels through. Electromagnetic waves moving through a vacuum, for instance, travel at roughly 3\*10 8 m/s. This value is so famous and common in physics it is given Page 23/31

Speed is a measure of the distance a wave travels in an amount of time. The speed of a wave is determined by the type of wave and the nature of the medium. As a wave enters a different medium, the wave 's speed changes. Waves travel at different speeds in different media.
