The Zero Carbon Car examines the hundreds of ways in which car manufacturers are trying to reduce our carbon footprint, and the adaptation of the automotive industry to changing technology in a world where environmental issues are becoming ever more prevalent. The book's in-depth research into green car technology shows that manufacturers make concerted efforts, but sometimes also defeat the gains of their innovation.Topics covered include: What is meant by the terms 'global warming' and 'green', and how these can be defined; An account of the long history of green automotive technology; Alternative fuels, including diesel and hydrogen; Developments in environmentally friendly engine technology; Electric cars; Environmental issues in material usage and car body manufacture. A wide-ranging survey of the hundreds of ways in which car manufacturers are trying to reduce our carbon footprint.Written in an easy-to-understand manner, the book enables the reader to fully understand what is meant by 'global warming'.Examines alternative fuels, material usage and the motive power options available to us.Superbly illustrated with 350 colour photographs.Brian Long is a professional writer and motoring historian with over sixty books to his credit.

Jeremy Clarkson gets REALLY riled up in Round the Bend What's it like to drive a car that's actively trying to kill you? This and many other burning questions trouble Jeremy Clarkson as he sets out to explore the world from the safety of four wheels. Avoiding the legions of power-crazed traffic wombles attempting to block highway and byway, he he: - Shows how the world of performance cars may be likened to Battersea Dogs Home - Reveals why St Moritz may be the most bonkers town in all of the world - Reminds us that Switzerland is so afraid of snow that any flakes falling on the road are immediately arrested - Argues that washing a car is a waste of time Funny, globe-trotting, irreverent and sometimes downright rude, Round the Bend is packed with curious and fascinating but otherwise hopelessly useless stories and facts about everything under the sun (and just occasionally cars). It's Jeremy Clarkson at his brilliant best. Praise for Jeremy Clarkson 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out 'Very funny . . . I cracked up laughing on the tube' Evening Standard

This book is targeted to students studying environmental law as well as legal academics, researchers, and undergraduates from other disciplines, including economics, political science, and natural sciences.
