Tunnels and Underground Cities: Engineering and Innovation meet Archaeology, Architecture and Art. Volume 4: Ground Improvement in Underground Constructions contains the contributions presented in the eponymous Technical Session during the World Tunnel Congress 2019 (Naples, Italy, 3-9 May 2019). The use of underground space is continuing to grow, due to global urbanization, public demand for efficient transportation, and energy saving, production and distribution. The growing need for space at ground level, along with its continuous value increase and the challenges of energy saving and achieving sustainable development objectives, demand greater and better use of the underground space to ensure that it supports sustainable, resilient and more liveable cities. The contributions cover a wide range of topics, from permeation grouting and consolidation works, safety operations, artificial ground freezing to frost heave control. The book is a valuable reference text for tunnelling specialists, owners, engineers, archaeologists, architects, artists and others involved in underground planning, design and building around the world, and for academics who are interested in underground constructions and geotechnics.

Clear and concise steps to develop the confidence and mental edge that sets you apart as a trailblazing leader—the same approach thousands of professional athletes have used to become champions. The Leader's Mind taps into the same tips and techniques honed by top-tier athletes, such as how to get in a "zone," thrive on a team, and stay humble, to become a champion at work and the ultimate team player at home. Based on high-performance psychology research and Dr. Jim Afremow's two decades of experience providing mental training services across the globe to athletes and business leaders, The Leader's Mind will help you master: Valuable leadership lessons through powerful parables and stories from well-known leaders. The actionable steps leaders must take to change their thinking and become the leader they want to be. The necessary mindset to push through the challenges you face and take control of the direction your career and home life are taking. Tips and techniques to overcome seemingly insurmountable odds and challenges in order to excel. Stop struggling with the expectations you face at work and at home by fundamentally changing the way you process what's happening in your life. The mental edge that sets elite athletes apart outlined in this book will help you become the champion leader you want to be.
