Discover how to transform your professional development and become a truly connected educator with user-generated learning! This book shows educators how to enhance their professional learning using practical tools, strategies, and online resources. With beginner-friendly, real-world examples and simple steps to get started, the author shows how to harness information from physical and virtual communities and become a lifelong learner in the digital age. Professional Learning in the Digital Age features:

- In-depth explanations of curation, reflection, and contribution
- Guest appearances from digitally connected educators
- Simple to-do lists to help you get started
- Handy appendices with resources for further learning, and so much more!

The LNCS series reports state-of-the-art results in computer science research, development, and education, at a high level and in both printed and electronic form. Enjoying tight cooperation with the R & D community, with numerous individuals, as well as with prestigious organizations and societies, LNCS has grown into the most comprehensive computer science research forum available. The scope of LNCS, including its subseries LNAI and LNBI, spans the whole range of computer science and information technology including interdisciplinary topics in a variety of application fields. The type of material published traditionally includes

proceedings (published in time for the respective conference) post-proceedings (consisting of thoroughly revised final full papers) research monographs (which may be based on outstanding PhD work, research projects, technical reports, etc.) More recently, several color-cover sublines have been added featuring, beyond a collection of papers, various added - value components; these sublines include tutorials (textbook - like monographs or collections of lectures given at advanced courses) state - of - the art surveys (offering complete and mediate coverage of a topic) hot topics (introducing emergent topics to the broader community) In parallel to the printed book, each new volume is published electronically in LNCS Online Book jacket.

The greatest public health victories of the last century -- public sanitation, vehicle safety measures, limits on smoking and tobacco use -- have all been facilitated by public policies. While policy is an unparalleled tool for effecting change in public health, most professionals are unprepared to plan, apply, or study policy in a consequential way. *Prevention, Policy, and Public Health* provides a basic foundation for students, professionals, and researchers to be more effective in the policy arena. It offers information on the dynamics of the policymaking process, theoretical frameworks, analysis, and policy applications. It also offers tools for advocacy and communication, two integral aspects of shaping policies for public health. Organized around the leading risk factors for premature death and supplemented with illustrative case study examples, this book will help professionals and researchers understand the dimensions of policy, which can in turn inform the conduct of research and evaluation. These skills, combined with an understanding of opportunities and limitations within governments, can be highly applicable to designing effective policies and programs. With current pressures to implement broad and sustainable public health improvements, policies are more important than ever for anyone in the study and practice of public health. This book can be considered a primer to truly understanding the connection between prevention, policy, and public health.

The Politics of Authentic Engagement: Perspectives, Strategies and Tools for Student Success provides practical approaches for leaders in a variety of roles to address the changing landscape of schooling, build dynamic relationships in support of schools, help parents/families support their children's achievement and create a culture of engagement. Strategies described in this book teach how to serve as a listener, teacher, leader facilitator, and initiator in engaging others within professional settings to do meaningful work that benefits students. It's companion book, *Authentic Engagement: Perspectives, Strategies, and Tools for Student Success* supports leaders in helping others learn to engage by providing handout, overheads, instructions, and other prompts to use in workshop settings.

This two-volume set constitutes the refereed proceedings of the 15th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2021, held as part of the 23rd International Conference, HCI International 2021, held as a virtual event, in July 2021. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. UAHCI 2021 includes a total of 84 papers; they focus on topics related to universal access methods, techniques and practices, studies on accessibility, design for all, usability, UX and technology acceptance, emotion and behavior recognition for universal access, accessible media, access to learning and education, as well universal access to virtual and intelligent assistive environments.

Volume offers a critical examination of the portrayals of relationships in the various media and debunks the myths perpetuated there. For courses in media criticism/media literacy, mass communication, & interpersonal communication.

For many teens, being 100 percent candid on social media and posting revealing photographs from last night's party is not only a blast, it's the norm. But what if their grandmother saw the posts? Even worse, what if a future boss or a college admissions recruiter did? Not cool. In this book, readers will learn why it's important to act responsibly when shaping their digital footprint. A breakdown of profile dos and don'ts and practical tips on how to manage their day-to-day social media presence make the information relevant. Fun quizzes, discussion prompts, and an engaging text keep the learning experience fun.
