Energy TYPES OF POTENTIAL
ENERGY When you stretch a
rubber band, you do work on it to
change its shape. The energy you
use to stretch the rubber is stored
as potential energy until you
release the rubber band. Any
object that can be stretched or
compressed has potential energy
called elastic potential
energy. Bungee

SECTION 3 What Is Energy?

Interactive Reader 276 Work and Energy CLASSES OF LEVERS

Scientists divide levers into three main classes based on where the fulcrum, input force, and output force are. In a first-class lever, the fulcrum is between the input and output forces. The mechanical advantage of a first-class lever depends on the position of the fulcrum. Fulcrum Output force Input force

Waddell, Heather (Science Dept.)
/ Physical Science 2016-2017
Work done is the difference
between the potential and kinetic
energy. Work done equals the
increase from potential to kinetic
energy. Work done is equal to the
change in energy.
