The Invacare portable concentrator is to be used by patients with respiratory disorders who require supplemental oxygen. The device is not intended to sustain or support life. The oxygen concentration level of the output gas ranges from 87% to 95.6%. The oxygen is delivered to the patient through

Invacare XPO2 Portable Concentrator

Portable oxygen concentrator (POC) is a device used to provide oxygen therapy to people that require greater oxygen concentrations than the levels of ambient air. It is similar to a stationary oxygen concentrator (SOC), but is smaller in size and more mobile, light enough to carry it everywhere, even on airplanes (FAA-approved for use).

Portable oxygen concentrator - Invacare Europe

For optimum performance, Invacare recommends that each concentrator be On, in auto-pulse mode, and running for a minimum of 5 minutes. Shorter periods of operation may reduce maximum product life. Refer to Checking O2Purity on page 15 for auto-pulse mode.

The new edition of an essential reference book for everyone who works in aviation.

All the information you need to operate safely in US airspace, fully updated. If you're an aviator or aviation enthusiast, you cannot be caught with an out-of-date edition of the FAR/AIM. In today's environment, there is no excuse for ignorance of the rules of the US airspace system. In the newest edition of the FAR/AIM, all regulations, procedures, and illustrations are brought up to date to reflect current FAA data. This handy reference book is an indispensable resource for members of the aviation community, as well as for aspiring pilots looking to get a solid background in the rules, requirements, and procedures of flight training. Not only does this manual present all the current FAA regulations, it also includes: A study guide for specific pilot training certifications and ratings A pilot/controller glossary Standard instrument procedures Parachute operations Airworthiness standards for products and parts The NASA Aviation Safety reporting form Important FAA contact information This is the most complete guide to the rules of aviation available anywhere. Don't take off without the FAR/AIM!

The fifth edition of Equipment Theory for Respiratory Care employs a comprehensive, competency-based approach to describe the equipment and latest technology used in the respiratory care setting. With an approachable style, the book covers the practice of respiratory theory, including: the administration of oxygen and oxygen mixtures by various devices and appliances; the application of mechanical ventilators to assist or control breathing; management of emergency airways; and applications of ventilators for various populations: neonatal, home care, and transport. Additionally, universal algorithms, an enhanced art program, and Clinical Corner problems round out this new edition. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Invacare is the world's top manufacturer of rehabilitative products. This book celebrates the history of this innovative company whose vision, creative management & dedication have changed the lives of millions.

The only one-stop resource of every medical supplier licensed to sell products in the US. This edition offers immediate access to over 13,000 companies-and more than 65,000 products - in two information-packed volumes. This comprehensive resource saves hours of time and trouble when searching for medical equipment and supplies and the manufacturers who provide them. Volume 1: The Product Directory, provides essential information for purchasing or specifying medical supplies for every medical device, supply, and diagnostic available in the US. Listings provide FDA codes & Federal Procurement Eligibility, Contact information for every manufacturer of the product along with Prices and Product Specifications. Volume 2: Supplier Profiles, offers the most complete and important data about Suppliers, Manufacturers and Distributors. Company Profiles detail the number of employees, ownership, method of distribution, sales volume, net income, key executives, detailed contact information, the medical products the company supplies, plus the medical specialties they cover. Four indexes provide immediate access to this wealth of information: Keyword Index, Trade Name Index, Supplier Geographical Index and OEM (Original Equipment Manufacturer) Index. Medical Device Register is the only one-stop source for locating suppliers and products; looking for new manufacturers or hard-to-find medical devices; comparing products and companies; knowing who's selling what and who to buy from cost effectively. This directory has become the standard in its field and will be a welcome addition to the reference collection of any medical library, large public library, university library, along with the collections that serve the medical community.

Offers coverage of marketing management concepts with a special emphasis on change and innovation entering into the twenty-first century.
