PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. Perfect for children ages 5-6, this workbook reinforces early science learning. Kindergartners will become familiar with topics such as motion, light, and the properties of solids, liquids, and gases, as well as the basic needs of all animals and plants. Developed in consultation with leading educational experts to support curriculum learning, DK Workbooks: Science is an innovative series of home-learning science workbooks that is closely linked to school curriculum and helps make learning easy and fun. Each title is packed with exercises and activities to strengthen what children learn in school. With clear questions and supportive illustrations to help children understand each topic, the books provide practice to reinforce learning and understanding of key concepts, such as animal life cycles, the solar system, chemistry, and anatomy. A parents' section contains answers, tips, and guidance to provide support, and a certificate of achievement will reinforce confidence in kids by rewarding their accomplishments.

Focusing on the very basic principles of science including the five senses, weather, seasons, animal babies, and more, DK Workbooks: Science: Pre-K will help preschoolers learn and understand first science concepts. Help your child move to the head of the class! DK Workbooks: Science is an innovative series of workbooks aligned to school curriculum that helps make learning easy and fun. Each title is packed with exercises and activities to strengthen knowledge from the science lessons taught in school. Developed in consultation with curriculum experts, these science workbooks reinforce learning and understanding of key concepts such as force and motion, materials, and ecosystems. A parents' section contains answers, tips, and guidance to provide support, and a certificate of achievement will reinforce confidence in kids by rewarding their accomplishments. Supports the Common Core State Standards.

File Type PDF Kindergarten Science Workbooks

PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. Boost your child's skills with fun activities and exercises that introduce key concepts in spelling, math, and science. Whether you want to teach your child at home, give them extra support outside the classroom, or find fun stimulation for your budding genius, this workbook has something for everyone. Home learning can be fun with these exercises, featuring drawing, puzzles, kitchen-science experiments, and more. This write-in book provides an introduction to key skills in literacy, numeracy, and science. To help the parent/carer, there are answer pages and notes providing further guidance; and there's no need to buy any specialist equipment or craft supplies - just pick up a pencil! With 60 activity pages to keep your child entertained as well as educated and a reward certificate on completion, there's something in a DK workbook for every child to learn and enjoy.

Build and develop essential skills for Kindergarten success with this activity workbook all about science concepts from Scholastic Early Learners!

From children's media creator Megan Hewes Butler, TinkerActive Workbooks: Pre-K Science is part of an illustrated educational series that combines curriculum-based exercises designed for all learners with hands-on activities to help kids learn through play. With TinkerActive Workbooks, learning leaps off the page and into the real world. Start with interactive and entertaining exercises that cover the essential pre-k science skills. Then, apply what you've learned with exciting hands-on tinkering, making, and engineering activities and common household materials. A charming cast of characters—the fuzzy, friendly TinkerActive MotMots, creatures of all shapes and sizes—guide kids through every new concept with cheer and humor. Once you've completed the workbook, unbox a collectible magnet badge of success hidden in the back cover and proudly display it on the included poster. Created in consultation with award-winning educators, TinkerActive Workbooks are designed so kids can learn through play! They build your child's fundamental science skills AND inspire them to try new things, discover new skills, and imagine new possibilities. This workbook covers: Living Things, My Body & The Five Senses, Animals & Plants, The Earth & Sky, Weather & Seasons, Water & Ice, Taking Care of the Earth, Sorting Objects, and Moving & Changing Objects. Illustrations by Chad Thomas and Anna-Maria Chung
