Michael: Being the token gay kid in the school was never gonna be an easy ride, I mistakenly thought my best friend Jared would be there for me through thick and thin. Often dismissed as the rumblings of "the street," popular politics is where political modernity is being formed today, according to Partha Chatterjee. The rise of mass politics all over the world in the twentieth century led to the development of new techniques of governing population groups. On the one hand, the idea of popular sovereignty has gained wide acceptance. On the other hand, the proliferation of security and welfare technologies has created modern governmental bodies that administer populations, but do not provide citizens with an arena for democratic deliberation. Under these conditions, democracy is no longer government of, by, and for the people. Rather, it has become a world of power whose startling dimensions and unwritten rules of engagement Chatterjee provocatively lays bare. This book argues that the rise of ethnic or identity politics—particularly in the postcolonial world—is a consequence of new techniques of governmental administration. Using contemporary examples from India, the book examines the different forms taken by the politics of the governed. Many of these operate outside of the traditionally defined arena of civil society and the formal legal institutions of the state. This book considers the global conditions within which such local forms of popular politics have appeared and shows us how both community and global society have been transformed. Chatterjee’s analysis explores the strategic as well as the ethical dimensions of the new democratic politics of rights, claims, and entitlements of population groups and permits a new understanding of the dynamics of world politics both before and after the events of September 11, 2001. The Politics of the Governed consists of three essays, originally given as the Leonard Hastings Schoff Lectures at Columbia University in November 2001, and four additional essays that complement and extend the analyses presented there. By combining these essays between the covers of a single volume, Chatterjee has given us a major and urgent work that provides a full perspective on the possibilities and limits of democracy in the postcolonial world.

Yeshua of Nazareth has two sisters: Damaris, married to a wealthy merchant’s son, and Pheodora, married to a simple shepherd from Bethlehem. When Pheodora’s husband suffers an unexpected reversal of fortune and is thrown into debtor’s prison, she returns to Nazareth, where she pins her hopes on two she-goats who should give birth to spotless white kids that would be perfect for

the upcoming Yom Kippur sacrifice. In the eighteen months between the kids' birth and the opportunity to sell them and redeem her husband from prison, Pheodora must call on her wits, her family, and her God in order to provide for her daughters and survive. But when every prayer and ritual she knows is about God's care for Israel, how can she trust that God will hear and help a lowly shepherd's wife?

Affliction inaugurates a novel way of understanding the trajectories of health and disease in the context of poverty. Focusing on low-income neighborhoods in Delhi, it stitches together three different sets of issues. First, it examines the different trajectories of illness: What are the circumstances under which illness is absorbed within the normal and when does it exceed the normal—putting resources, relationships, and even one ' s world into jeopardy? A second set of issues involves how different healers understand their own practices. The astonishing range of practitioners found in the local markets in the poor neighborhoods of Delhi shows how the magical and the technical are knotted together in the therapeutic experience of healers and patients. The book asks: What is expert knowledge? What is it that the practitioner knows and what does the patient know? How are these different forms of knowledge brought together in the clinical encounter, broadly defined? How does this event of everyday life bear the traces of larger policies at the national and global levels? Finally, the book interrogates the models of disease prevalence and global programming that emphasize surveillance over care and deflect attention away from the specificities of local worlds. Yet the analysis offered retains an openness to different ways of conceptualizing " what is happening " and stimulates a conversation between different disciplinary orientations to health, disease, and poverty. Most studies of health and disease focus on the encounter between patient and practitioner within the space of the clinic. This book instead privileges the networks of relations, institutions, and knowledge over which the experience of illness is dispersed. Instead of thinking of illness as an event set apart from everyday life, it shows the texture of everyday life, the political economy of neighborhoods, as well as the dark side of care. It helps us see how illness is bound by the contexts in which it occurs, while also showing how illness transcends these contexts to say something about the nature of everyday life and the making of subjects.

The essays in this book explore the critical possibilities that have been opened by Veena Das ' s work. Taking off from her writing on pain as a call for acknowledgment, several essays explore how social sciences render pain, suffering, and the claims of the other as part of an ethics of responsibility. They search for disciplinary resources to contest the implicit division between those whose pain receives attention and those whose pain is seen as out of sync with the times and hence written out of the historical record. Another theme is the co-constitution of the event and the everyday, especially in the context of violence. Das ' s groundbreaking formulation of the everyday provides a frame for understanding how both violence and healing might grow out of it. Drawing on notions of life and voice and the struggle to write one ' s own narrative, the contributors provide rich ethnographies of what it is to inhabit a devastated world. Ethics as a form of attentiveness to the other, especially in the context of poverty, deprivation, and the corrosion of everyday life, appears in several of the essays. They take up the classic themes of kinship and obligation but give them entirely new meaning. Finally, anthropology ' s affinities with the literary are reflected in a final set of essays that show how forms of knowing in art and in anthropology are related through work with painters, performance artists, and writers.
