Naisbitt and Aburdene provide a forecast of the coming ten years, including a booming global economy, the decade of women in leadership, and the religious revival of the third millenium. A thought-provoking study which gains new significance as we approach the last decade of the 20th century.

Examines the continually changing role that women play in society

Reveals changes currently taking place in Asia and considers how these changes will affect the rest of the world

In his seminal works Megatrends and Megatrends 2000, John Naisbitt proved himself one of the most far-sighted and accurate observers of our fast-changing world. Mind Set! goes beyond that—Mind Set! discloses the secret of forecasting. John Naisbitt gives away the keys to the kingdom, opening the door to the insights that let him understand today's world and see the opportunities of tomorrow. He selects his most effective tools, 11 Mindsets, and applies them by guiding the reader through the five forces that will dominate the next decades of the twenty-first century. Illustrated by stories about Galileo and Einstein to today's icons and rebels in business, science, and sports, Mind Set! opens your eyes to see beyond media headlines, political slogans, and personal opinions to select and judge what will form the pictures of the future.

From the authors of The New York Times bestseller, Megatrends: Ten New Directions Transforming Our Lives, comes Mastering Megatrends: Understanding and Leveraging the Evolving New World, which deals with the complexity of change. It is one thing to spot a real trend from a fad, but it is quite another thing to deal with an incoming trend. In today's digital world, almost everyone can easily access information. But this information can be either fact or opinion, informative or intentional, intellectual or populist, spread by humans or algorithms. Once spread, it is consumed by readers who may be open or biased and have culturally and geographically diverse attitudes. Since we naturally tend to ignore information that jeopardizes our own expectations, Mastering Megatrends offers guidelines on how to take down internal and external barriers of understanding as it covers such topics as: • HOW TO MAKE JUDGMENTS AND MASTER EMOTIONS • UNDERSTANDING THE EMERGING PLAYERS • A NEW MAPPING OF THE WORLD • MASTERING A NEW WORKING WORLD • MASTERING THE EDUCATION CHALLENGE • MASTERING MASS COMMUNICATIONS • MASTERING A NEW TRADE ORDER

"The ideas in his book will help you see the world in a new way." -Bill Clinton "Mark Penn has a keen mind and a fascinating sense of what makes America tick, and you see it on every page of Microtrends." -Bill Gates In 1982, readers discovered Megatrends. In 2000, The Tipping Point entered the lexicon. Now, in Microtrends, one of the most respected and sought-after analysts in the world articulates a new way of understanding how we live. Mark Penn, the man who identified "Soccer Moms" as a crucial constituency in President Clinton's 1996 reelection campaign, is known for his ability to detect relatively small patterns of behavior in our culture-microtrends that are wielding great influence on business, politics, and our personal lives. Only one percent of the public, or three million people, is enough to launch a business or social movement. Relying on some of the best data available, Penn identifies more than 70 microtrends in religion, leisure, politics, and family life that are changing the way we live. Among them: People are retiring but continuing to work. Teens are turning to knitting. Geeks are becoming the most sociable people around. Women are driving technology. Dads are older than ever and spending more time with their kids than in the past. You have to look at and interpret data to know what's going on, and that conventional wisdom is almost always wrong and outdated. The nation is no longer a melting pot. We are a collection of communities with many individual tastes and lifestyles. Those who recognize these emerging groups will prosper. Penn shows readers how to identify the microtrends that can transform a business enterprise, tip an election, spark a movement, or change your life. In today's world, small groups can have the biggest impact.
