Mitsubishi SF series Express & Starwagon workshop manual -- Mitsubishi engine and transmission workshop manual.

The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer

Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every

system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

The definitive international history of one of the world's most successful rally cars. Covers every Lancer model -

including all special editions, and Dodge, Colt, Plymouth, Valiant, Eagle, Proton and Hyundai variants - from 1973 to date. Includes a Foreword by Shinichi Kurihara, Mitsubishi's Evo team leader.

The world is on the brink of war, the enemy have increased their attacks on humans, and my team and I have been assigned the mission of building the Angels' army on Earth. However, the unthinkable happens, and my biggest fear comes true. Nothing will stop me from recovering what is mine. Except everything and everyone tries. Suspicious humans have set traps to ensnare the supernatural. The world powers have closed their borders as they prepare for war. The Demons' army grows exponentially by taking

innocent souls-souls that we're supposed to protect. And a power-hungry sorceress schemes to rule us all, with revenge on my grandmother topping her priority list. I'm forced to choose between those I love dearly and the souls of all of humanity, but when there's no right answer, I'm destined to lose. The question is-who will it be?

Being a gearhead matters. Much as we love reading about the latest hypercar or money-no-object custom project, we believe vehicles owned - and loved - by gearheads like us are just as meaningful, if not moreso. Our readers are self-made. We buy vehicles for specific reasons and we learn

how to maintain, modify, and repair them ourselves. (With a little help from our friends, of course!) Everyone you meet in an issue of Gearbox Magazine is cool. If you spotted them in a parking lot, you could walk right up to them and strike up a conversation. And chances are you might end up lifelong friends. We're not looking to get rich and forget our roots. We're trying to make a few bucks so we can spend more time helping gearheads build high performance machines & lives. This issue isn't perfect, but neither are our daily drivers. We hope you'll grab a copy and tell a couple friends about us. Thanks for checking us out. GBXM-united. Better living through busted knuckles.
