In a series of convergent empirical essays, *Manufacturing Whiteness* explores the striking parallels in the social construction of whiteness and gender in colonial depictions of the colonizer/colonized and in contemporary advertising. The past decade has seen a sincere, if belated, willingness among white male scholars to self-critically examine the oppressive social, cultural, and political implications of their whiteness. Building on Jacques Lacan's powerfully original social-psychoanalytic insights into the role of desire in the fetishistic constitution of the subject-in-language, *Manufacturing Whiteness* offers a sophisticated, yet accessible theoretical method for deconstructing ad-content which enables the reader to trace whiteness, "otherness," and other worldliness to the very constitution of latemodern/postmodern western identity.

*The Relationship Between Parapsychology and Gravity* is Volume 2 of J.G. Galimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "odinic force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.
