Author, psychologist, and
astrologer Monika Wikman has
worked for decades with clients

Where To Download Pregnant Darkness

and their dream symbols and witnessed the presence of the divine hand at work in the psyche. In *The Pregnant Darkness*, Wikman shows readers that the best way to cope with their darkest hours is by fostering a connection to the deeper

Where To Download Pregnant Darkness

current of life, and those mysteries that give life form and meaning. Wikman's analysis of dream material leads readers into a practical explanation of alchemical symbolism. Far from being a quaint, ancient practice, The Pregnant Darkness shows

Where To Download Pregnant Darkness

that alchemy is at work in contemporary, everyday life. Alchemical symbolism, properly understood, can be applied to unraveling the meaning of visions in meditation, active imagination, and dream work. Wikman shows how readers can participate in the

Where To Download Pregnant Darkness

divine energies to help
miraculous changes occur in their
lives. Wikman writes: "In Greek
mythology, Pegasus, upon taking
to the air, pushed hard with a
back hoof and penetrated the
earth. A spring rose up where his
hoof dashed the earth, and in this

Where To Download Pregnant Darkness

hole... the muses reside. One of the roles of the "religious function" of which Jung speaks is to bring us toward that inner spring of the muses where something beyond ego resides, instructs, and inspires. Like a hole created from Pegasus' leaping

Where To Download Pregnant Darkness

foot, contact with this inner
spring often entails a crack in our
field of ordinary consciousness. In
the inner world, the spring of
living symbols and accompanying
presences is the source of dreams
and visions, as well as the
fountain of inspiration at the

Where To Download Pregnant Darkness

heart of poetry, art, ritual,
mythology, and even religion."

This book reveals the way our
dreaming expresses and reflects
our deep interpersonal and
environmental interconnectivity.
Drawing upon her decades of

Where To Download Pregnant Darkness

Jungian analytic practice, and many years of pioneering in dream groups, Castleman weaves a rich tapestry of dream threads which shows us how we are dreaming with and for each other. Her method is that of a storyteller telling the stories of people, their

Where To Download Pregnant Darkness

dreams, the stories of shamans, the stories of individuals suffering from cancer, love entanglements, and most delightfully, stories which show how dreams are woven together with communal life in other cultures, as well as in our own.

What happens when a former Zen Buddhist monk and his feminist wife experience an apparition of the Virgin Mary? “This book could not have come at a more auspicious time, and the message

is mystical perfection, not to mention a courageous one. I adore this book.”—Caroline Myss, author of *Anatomy of the Spirit*
Before a vision of a mysterious “Lady” invited Clark Strand and Perdita Finn to pray the rosary, they were not only uninterested

in becoming Catholic but finished with institutional religion altogether. Their main spiritual concerns were the fate of the planet and the future of their children and grandchildren in an age of ecological collapse. But this Lady barely even referred to

the Church and its proscriptions. Instead, she spoke of the miraculous power of the rosary to transform lives and heal the planet, and revealed the secrets she had hidden within the rosary's prayers and mysteries—secrets of a past age

When forests were the only cathedrals and people wove rose garlands for a Mother whose loving presence was as close as the ground beneath their feet. She told Strand and Finn: The rosary is My body, and My body is the body of the world. Your body

Well-known Jungian analyst,
author and lecturer Erel Shalit

Where To Download Pregnant Darkness

passed away in early 2018. This is his book, *The Human Soul (Lost) in Transition At the Dawn of a New Era*, published posthumously. “The aim of this book,” wrote Shalit, “is to present a depth psychological perspective on phenomena pertaining to the

present, postmodern era. As such, its origins are in the depths; symbolically, in the depth of the waters, in which the sacred is reflected. Likewise, this book centers around the image, which has travelled from the forbidden zone of the transcendent
