His new book, The Ascension Mysteries, is an amazing look into our future and, to me, so far, a lesson in The Golden Rule. I am still in the middle of reading it, but I am already amazed.

Thankfully I've read his Synchronicity Key book which helps me get what he's putting forth in his new book. Thank you for writing this, David.

The Ascension Mysteries Quotes
Showing 1-10 of 10. "I learned
about the propulsion system the
discs use. They have a particle
emitter that first shoots out a
particle going three-quarters the
speed of light. Then a trillionth of
a second later, it shoots out
another particle at light speed.
The faster particle bounces off
the slower particle like a billiard
ball and shoots back to the ship,
striking it on the side of the disc.
