Dispute Resolution Letter. If we describe resolution in simple words, it means to change something i.e. method, procedure or strategy. When a company or business wants to make some differences in the office related to either planning or employees, it issues a letter which states the needs and rules of changes and this official notification is called a letter of resolution.

This textbook describes different methods of dispute resolution and outlines the advantages and disadvantages of each. Specific examples are used to illustrate key concepts, and role play exercises are included as a means of reinforcing the main ideas. Unilateral, bilateral, and third-party approaches are all considered, with discussion of inaction, acquiescence, self-help, negotiation, juries, mediation, arbitration, litigation, and private judging.

Lawyers, Crown counsels, district attorneys, and paralegals are often tasked with managing negotiation and conflict resolution in the courtroom; however, very little theory or literature surrounding this specialization exists. This handbook effectively closes these gaps and extensively discusses theories of negotiation and conflict resolution in criminal practice. Part one discusses communicating effectively and appropriately with clients, court staff, and opposing counsel by identifying and establishing cultural competence, rapport, and nonverbal cues. Part two identifies alternative processes in negotiation and conflict resolution including victim-offender mediation and retroactive justice, while part three covers career development in areas such as managing challenging clients and developing strategies for dealing with high-stress scenarios. This ground-breaking resource is well suited to students in a wide variety of courses that specialize in negotiation and conflict resolution including criminal justice, law, paralegal, police studies, or criminology.
