Deathreats provides an intimate look inside the mind of Drew Hayes, one of the comic book world's most controversial and colorful celebrities. It's a primary source of publishing history in the independent age of popular arts. In each issue of Poison Elves, Drew wrote a "Starting Note," his own deeply personal editorial in which he spoke his mind on everything from the state of the comic book industry to the state of his love life, with an occasional diatribe on music, movies, modern art, and anything else that intrigued him - or pissed him off! This volume collects all 100 of the Starting Notes from Poison Elves (annotated and illustrated to provide biographical context), as well as extended excerpts from Drew's most revealing Deathreats letter columns.

The early modern and modern cultural world in the West would be unthinkable without Petrarch and Boccaccio. Despite this fact, there is still no scholarly contribution entirely

devoted to analysing their intellectual revolution. Internationally renowned scholars are invited to discuss and rethink the historical, intellectual, and literary roles of Petrarch and Boccaccio between the great model of Dante's encyclopedia and the ideas of a double or multifaceted culture in the era of Italian Renaissance Humanism. In his lyrical poems and Latin treatises, Petrarch created a cultural pattern that was both Christian and Classical, exercising immense influence on the Western World in the centuries to come. Boccaccio translated this pattern into his own vernacular narratives and erudite works, ultimately claiming as his own achievement the reconstructed unity of the Ancient Greek and Latin world in his contemporary age. The volume reconsiders Petrarch's and Boccaccio's heritages from different perspectives (philosophy, theology, history, philology, paleography, literature, theory), and investigates how these heritages shaped the cultural transition between the end of the Middle Ages and the early modern era, as well as European identity.

All children must have an opportunity to share the joy of choral music participation - whether in school, church, or community choirs. What happens before the singing begins, is critical to supporting, sustaining, and nurturing choirs to give every child the opportunity to experience the wonder of choral singing. Based on years of experience conducting and teaching, Barbara Tagg brings a wealth of practical information about ways of organizing choirs. From classroom choirs, to mission statements, boards of directors, commissioning, auditioning, and repertoire, *Before the Singing* will inspire new ways of thinking about how choirs organize their daily tasks. The collaborative community that surrounds a choir includes conductors, music educators, church choir directors, board members, volunteers, staff, administrators, and university students in music education and nonprofit arts management degree programs. For all these, Tagg offers a wealth of knowledge about creating a positive environment to support artistry, creativity, dedication, and a commitment to striving for excellence.
