Rotters won the ALA Odessey Award for best children's or young adult recording. It was for sale at the Listening Library booth at the conference in Chicago for \$20.00, so I purchased it. I figured that even if it wasn't my line of books that for that price I could donate it to the public library. (It came in the library binding for a CD recording.) It has been a real surprise. Sixteen-year-old Joey's life takes a very strange turn when his mother's tragic death forces him to move from Chicago to rural Iowa with the father he has never known, and who is the town pariah.

Grave-robbing. What kind of monster would do such a thing? It's true that Leonardo da Vinci did it, Shakespeare wrote about it, and the resurrection men of nineteenth-century Scotland practically made it an art. But none of this matters to Joey Crouch, a sixteen-year-old straight-A student living in Chicago with his single mom. For the most part, Joey's life is about playing the trumpet and avoiding the daily humiliations of high school. Everything changes when Joey's mother dies in a tragic accident and he is sent to rural Iowa to live with the father he has never known, a strange, solitary man with unimaginable secrets. At first, Joey's father wants nothing to do with him, but once father and son come to terms with each other, Joey's life takes a turn both macabre and exhilarating. Daniel Kraus's masterful plotting and unforgettable characters make Rotters a moving, terrifying, and unconventional epic about fathers and sons, complex family ties, taboos, and the ever-present specter of mortality.

In the midst of a 1981 meteor shower in Iowa, a homicidal maniac escapes from prison and returns to the farm where his nineteen-year-old son, Ry, must summon three childhood toys--Mr. Furrington, Jesus Christ, and Scowler--to protect himself, his eleven-year-old sister, Sarah, and their mother.

From Daniel Kraus, the New York Times bestselling co-author of Academy Award-winning Best Picture The Shape of Water, comes Blood Sugar, the blood-curdling story of a Halloween where trick-or-treat becomes life or death... "A hard kick in the shins you never saw coming... And wow, is it fun to read" - LitReactor Best of 2019 Staff Pick In a ruined house at the end of Yellow Street, an angry outcast hatches a scheme to take revenge for all the wrongs he has suffered. With the help of three alienated kids, he plans to hide razor blades, poison, and broken glass in Halloween candy, maiming or killing dozens of innocent children. But as the clock ticks closer to sundown, will one of his helpers - an innocent himself, in his own streetwise way - carry out or defeat the plan? Told from the child's point of view, in a voice as unforgettable as A CLOCKWORK ORANGE, Kraus' novel is at once frightening and emotional, thought-provoking and laugh-out-loud funny. It'll make you rethink your concepts of family, loyalty, and justice - and will leave you double-checking the wrappers on your Halloween candy for the rest of your days.

"Kraus gets under your skin with brutal, elegant efficiency. Necessarily horrifying, devastatingly timely."—Kiersten White, New York Times-bestselling author of The Dark Descent of Elizabeth Frankenstein and Slayer From New York Times-bestselling author Daniel Kraus comes a breakneck, genre-defying YA thriller perfect for fans of Kiersten White, Neal Shusterman, and M. T. Anderson. Liv Fleming's father went missing more than two years ago, not long after he claimed to have been abducted by aliens. Liv has long accepted that he's dead, though that doesn't mean she has given up their traditions. Every Sunday, she and her lifelong friend Doug Monk trudge through the woods to check the traps Lee left behind, traps he set to catch the aliens he so desperately believed were after him. But Liv is done with childhood fantasies. Done pretending she believes her father's absurd theories. Done going through the motions for Doug's sake. However, on the very day she chooses to destroy the traps, she discovers in one of them a creature so inhuman it can only be one thing. In that moment, she's faced with a painful realization: her dad was telling the truth. And no one believed him. Now, she and Doug have a choice to make. They can turn the alien over to the authorities...or they can take matters into their own hands. On the heels of the worldwide success of The Shape of Water, Daniel Kraus returns with a horrifying and heartbreaking thriller about the lengths people go to find justice and the painful reality of grief. "Bent Heavens is the darkest, angriest alien horror story that I've ever encountered. Hell. Yes."—Stephanie Perkins, New York Times-bestselling author of There's Someone Inside Your House

On his way to State University, nineteen-year-old James runs into a former friend and is immersed in memories from the year they were twelve and learned that monsters exist in the world--and within themselves.

"A horror landmark and a work of gory genius."—Joe Hill, New York Times bestselling author of The Fireman New York Times bestselling author Daniel Kraus completes George A. Romero's brand-new masterpiece of zombie horror, the massive novel left unfinished at Romero's death! George A. Romero invented the modern zombie with Night of the Living Dead, creating a monster that has become a key part of pop culture. Romero often felt hemmed in by the constraints of film-making. To tell the story of the rise of the zombies and the fall of humanity the way it should be told, Romero turned to fiction. Unfortunately, when he died, the story was incomplete. Enter Daniel Kraus, co-author, with Guillermo del Toro, of the New York Times bestseller The Shape of Water (based on the Academy Award-winning movie) and Trollhunters (which became an Emmy Award-winning series), and author of The Death and Life of Zebulon Finch (an Entertainment Weekly Top 10 Book of the Year). A lifelong Romero fan, Kraus was honored to be asked, by Romero's widow, to complete The Living Dead. Set in the present day, The Living Dead is an entirely new tale, the story of the zombie plague as George A. Romero wanted to tell it. It begins with one body. A pair of medical examiners find themselves battling a dead man who won't stay dead. It spreads quickly. In a Midwestern trailer park, a Black teenage girl and a Muslim immigrant battle newly-risen friends and family. On a US aircraft carrier, living sailors hide from dead ones while a fanatic makes a new religion out of death. At a cable news station, a surviving anchor keeps broadcasting while his undead colleagues try to devour him. In DC, an autistic federal employee charts the outbreak, preserving data for a future that may never come. Everywhere, people are targeted by both the living and the dead. We think we know how this story ends. We. Are. Wrong. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

"The story follows Zebulon Finch, a teenager murdered in 1896 Chicago who inexplicably returns from the dead and searches for redemption through the ages"--

"Truly captivating." —The New York Times "A deliciously macabre fairy tale, full of snuggles." —Holly Black, award-winning author of Doll Bones and co-creator of The Spiderwick Chronicles Welcome to The Teddies Saga, a gripping new middle grade trilogy from New York Times-bestselling author Daniel Kraus and illustrator Rovina Cai. Buddy wakes up in the middle of a garbage dump, filled with a certain awareness: he's a teddy bear; he spent time at a Store waiting for his future to begin; and he is meant for the loving arms of a child. Now he knows one more thing: Something has gone terribly wrong. Soon he finds other discarded teddies—Horace, Sugar, Sunny, and Reginald. Though they aren't sure how their luck soured, they all agree that they need to get back to the Store if they're ever to fulfill their destinies. So, they embark on a perilous trek across the dump and into the outer world. With ravenous rats, screeching gulls, and a menacing world in front of them, the teddies will need to overcome insurmountable challenges to find their way home. Equal parts Toy Story and Lord of the Flies, They Threw Us Away is the unforgettable start of a captivating series.

From Guillermo del Toro comes the book that inspired the Netflix Animated Series TROLLHUNTERS! "You are food. Those muscles you flex to walk, lift, and talk? They're patties of meat topped with chewy tendon. That skin you've paid so much attention to in mirrors? It's delicious to the right tongues, a casserole of succulent tissue. And those bones that give you the strength to make your way in the world? They rattle between teeth as the marrow is sucked down slobbering throats. These facts are unpleasant but useful. There are things out there, you see, that don't cower in holes to be captured by us and cooked over our fires. These things have their own ways of trapping their kills, their own fires, their own appetites." Jim Sturges is your typical teen in suburban San Bernardino— one with an embarrassingly overprotective dad, a best friend named "Tubby" who shares his hatred of all things torturous (like gym class), and a crush on a girl who doesn't know he exists. But everything changes for Jim when a 45-year old mystery resurfaces, threatening the lives of everyone in his seemingly sleepy town. Soon Jim has to team up with a band of unlikely (and some un- human) heroes to battle the monsters he never knew existed. From the minds of horror geniuses Guillermo del Toro and Daniel Kraus comes a new illustrated novel about the fears that move in unseen places.
