~~Sansui s-x500 stereo receiver manual - WordPress.com~~

Receivers. Sansui receiver history is as old as Sansui itself. The first Sansui kit, HPR-100 had the tuner section. Sansui produced more tube receivers than tube amplifiers. The early-day tube receivers include 250, SM320, 500, 1000. Their goal at the time was to produce the world class stereo amplifiers and receivers.

I used my AU 717 to power JBL L-166's with great results. The later Sansui receivers and integrations such as the x500's and x700's still sounded good, but the internals were getting cheap. Same with the "Z" series that followed, but they looked better. The one other brand of components to consider are the Technics separates from the era.
