In A View from Abroad Nicolás Bas recreates, using a bibliographical approach, the manner in which Spain was regarded in Europe in the Eighteenth century, by consulting booksellers' catalogues, private book collections and key auctions in Paris and London.

Visión panorámica de las imágenes y el discurso cinematográfico referentes al pueblo mexicano en Estados Unidos, que compara la manera en que esta comunidad ha sido representada por Hollywood, por el cine mexicano y por el mismo cine social chicano. Combinando la historia cultural con la crítica cinematográfica, el libro examina los factores materiales e ideológicos que explican las diferencias entre las tres cinematografías y realiza un análisis textual de las películas.

Originally published in 1982, this important work has been out of print for a number of years. This volume presents a new approach to Spanish Baroque drama, inspired by Foucauldian discourse archeology, whose rare fusion of meticulous philology and ambitious theory will be exciting and fruitful both for the specialist of Spanish literature and for anyone invested in the history of European thought. readings are dedicated to some of the most prominent plays by Lope de Vega and Calderón de la Barca, both autos sacramentales (*El viaje del alma*; *El divino Orfeo*; *La lepra de Constantino*) and comedias (*El castigo sin venganza*, *El príncipe constante*, *El médico de su honra*). The "archeological" perspective cast on the plays implies an integration of their discourse-historical "foils", from pagan antiquity through the Middle Ages and the Renaissance, as well as a discussion of related discourses, mainly theological, philosophical and historiographical. A separate "excursus" suggests a reconsideration of the common manner in which the discursive relation between the Middle Ages, the Renaissance, Mannerism and the Baroque is conceptualized.

Cultural tourism has become an important source of revenue for Latin American countries, especially in the Andes and Meso-America. Tourists go there looking for authentic cultures and artefacts and interact directly with indigenous people. Cultural tourism therefore takes place in close engagement with local societies. This book analyse the effects of cultural tourism and the processes of change it provokes in local societies. It analyses the intricacies of informal markets, the consequences of enforcing tourist policies, the varied encounters of foreign tourists with local populations, and the images and identities that result from the development of tourism. The contributors convincingly show that the tourist experience and the reactions to tourist activities can only be understood if analysed from within local contexts. Contributors: Michiel Baud, Annelou Ypeij, Lisa Breglia, Quetzil E. Castañeda, Ben Feinberg, Carla Guerrero Montero, Walter E. Little, Keely B. Maxwell, Lynn A. Meisch, Zoila S. Mendoza, Alan Middleton, Beatrice Simon, Griet Steel, Gabriela Vargas-Cetina. "Tourism in Latin America especially the sort of cultural tourism that plays to desires for authentic experiences has become a key foreigner currency earner for many countries. This important volume examines the impact of tourism across the region, providing a rich survey of the range of experiences and teasing out the theoretical implications. From the almost surreal Mi Pueblito theme park in Panama to mushroom-hunting tourists in Oaxaca to the eco-trail leading to Machu Pichu, these chapters present compelling cases that speak to identity formation, nationalism, and economic impacts. As the contributors show, benefits are differentially accrued to various actors and often not to the communities that tourists come to see. Yet, the contributors also make it clear that in struggles over ownership, authenticity, and political representation, local communities actively shape the contours and meanings of tourism, at times successfully leveraging cultural capital into economic gains." Edward F. Fischer, Director Center for Latin American Studies, Vanderbilt University

Whatever it was you expected when you heard about the new Classics of Western Spirituality(TM) series from Paulist Press, forget it. The real thing is better. The Crux of Prayer Luis de León: The Names of Christ translated and introduced by Manuel Duran and William Kluback preface by J. treasure, is the most meaningful and dearest of all knowledge. Luis de León (1527-1591) *The Names of Christ* is a masterpiece of the Golden Age of Spain. Written in the style of a pastoral novel, the work is a meditation on the philosophical and theological significance of the names of Christ. Based on a careful examination of ten names given Christ in the Scriptures, the book reflects elements of Augustinian, Jewish, and Islamic spirituality that were part of sixteenth-century Spain. Luis de León was born in 1527 in Belmonte, a small village in the Castile region of Spain. An Augustinian friar, a brilliant professor, an artful poet, he was a true Renaissance man whose vision of the fullness of Christ sustained him in the face of persecution at the hands of the Inquisition and infused his writing with a sensitivity that has made *The Names of Christ* a treasure of Spanish literature and a classic of Catholic mysticism.
