The art of singing, like other arts, has had its periods of development, culmination, and decay. The only period which concerns us here is that in which singing has been associated with the growth of modern music, and which may be said to date from the rise of the modern harmonic style in Italy in the 17th century.

voice. In its physical aspect, singing has a well-defined technique that depends on the use of the lungs, which act as an air supply, or bellows; on the larynx, which acts as a reed or vibrator; on the chest and head cavities, which have the function of an amplifier, as the tube in a wind instrument; and on the tongue, which together with the palate, teeth, and lips articulate and impose consonants and vowels on the amplified sound.

~~The Art Of Singing: A Manual by Lucie Manen~~

Singing is the act of producing musical sounds with the voice and augments regular speech by the use of sustained tonality, rhythm, and a variety of vocal techniques. A person who sings is called a singer or vocalist (in jazz and popular music). Singers perform music (arias, recitatives, songs, etc.) that can be sung with or without accompaniment by musical instruments.
