The Geography Of Thought Richard

The Geography of Thought: How Asians and Westerners Think Differently...and Why is a book by social psychologist Richard Nisbett that was published by Free Press in 2003. By analyzing the differences between Asia and the West, it argues that cultural differences affect people's thought processes more significantly than believed.

The Geography of Thought - Wikipedia

The Geography of Thought documents Richard Nisbett's groundbreaking international research in cultural psychology and shows that people actually think about—and even see—the world differently because of differing ecologies, social structures, philosophies, and educational systems that date back to ancient Greece and China. As a result, East Asian thought is “holistic”—drawn to the perceptual field as a whole and to relations among objects and events within that field.

As Professor Nisbett shows in *The Geography of Thought* people actually think - and even see - the world differently, because of differing ecologies, social structures, philosophies, and educational systems that date back to ancient Greece and China, and that have survived into the modern world. As a result, East Asian thought is "holistic" - drawn to the perceptual field as a whole, and to relations among objects and events within that field.

The Geography of Thought : How Asians and Westerners Think ...

The *Geography of Thought* is a 2003 sociology book by American social scientist and psychologist Richard Nisbett. The book is subtitled *How Asians and Westerners Think Differently...And Why*, and Nisbett's somewhat controversial thesis is that Western peoples and Asian peoples are fundamentally different on a cognitive level and that this is true as a function of deep-seated cultural pressures as opposed to biological, evolutionary ones.

The Geography of Thought Quotes Showing 1-12 of 12. “?The Chinese believe in constant change, but with things always moving back to some prior state. They pay attention to a wide range of events; they search for relationships between things; and they think you can't understand the part without understanding the whole.

The Geography of Thought Quotes by Richard E. Nisbett

The Geography of Thought documents Professor Nisbett's groundbreaking international research in cultural psychology, a series of comparative studies both persuasive in their rigor and startling in their conclusions, addressing questions such as: • Why did the ancient Chinese excel at algebra and arithmetic, but not geometry, the brilliant achievement of such Greeks as Euclid?
