This book examines one of the most contested issues facing feminists, human rights activists and governments around the globe – the international sex trade. For decades, the liberal left has been conflicted as to whether pro-prostitution activists or abolitionists hold the correct view, and debates are ongoing as to who holds the key to the solutions facing the women and girls involved. Over the course of two years, Bindel conducted 250 interviews in almost 40 countries, cities and states, traveling around Europe, Asia, North America, Australia, New Zealand, and East and South Africa. Visiting legal brothels all around the world, Bindel got to know pimps, pornographers, survivors of the sex trade, and the women being sold by men classed as 'business entrepreneurs'. Whilst meeting feminist abolitionists, pro-prostitution campaigners, police and government officials, and the men who drive the demand, Bindel uncovered the lies, mythology and criminal activity that shroud this global trade, and suggests here a way forward for the women seeking to abolish the oldest oppression. Informed by the lived human experience of those interviewed, this book will be of great interest to feminists, students, criminal justice advocates, criminologists and human rights activists.

This imaginative and comprehensive introduction to the sex industry is as welcome as it is timely.... This is a rewarding and topical book that I would urge all interested parties to consult. Graham Scambler, Professor of Medical Sociology, University College London. A remarkably thorough analysis of prostitution in contemporary society. Situating sex work at the intersection of economy, occupation, and emotion, the authors illuminate the complex forces that shape prostitution within an emerging global order. Bringing their analysis full circle, they close with a helpful exploration of the methods by which researchers are able to investigate an area of such danger and controversy. All in all, a courageous and important book. Jeff Ferrell, Visiting Professor of Criminology, University of Kent, UK, and Professor of Sociology, Texas Christian University, USA. This excellent text fills a gap in the market as it explores the full range of issues covering sex work, policy and politics...A fascinating and informative text which will become the leading handbook in this area. Dr Louise Westmarland, Senior Lecturer in Criminology, The Open University Many commentators have attempted to analyze and explain the nature of prostitution. However, this is the first textbook to offer a complete overview of the way it operates within contemporary society, its characteristics, organizational structures and cultural contexts. The book also explores how criminal, social and health policies have sought to regulate and control the selling of sex. This introduction to the sociology and criminology of sex work is: " comprehensive - covering all key areas common to the study of the female sex industry and also includes male and transgender sex work, and the sexual exploitation of young people " interdisciplinary - combining sociological approaches with criminology, criminal justice studies, social policy, health research and sexuality studies " comparative - including the international context of the sex industry, drawing on European and other examples of law, regulation and systems that govern the sex industry " student-focused - offering a lively writing style, case studies, summaries of relevant legislation, study questions and guidance on further reading " accessible - assisting student learning and aiding lecturers in their teaching. Written by leading experts with over 20 years' experience in researching and teaching in the field, this is a must for all criminology, criminal justice and sociology students taking modules in sex industry and prostitution studies. It will also appeal to those in gender studies and social policy.

'This book is comprehensive, authoritative, personally revealing, and a clear headed rage against a tide of modern double think. It will help feminism untangle itself from all the knots of faux progressiveness about prostitution, which is repackaging sexual abuse as empowerment. Bindel is a fearless, uncompromising voice who deserves to be universally heard.' -Janice Turner, Times Newspaper columnist 'A profoundly impressive piece of reporting and polemic into a commercial industry. You may love Bindel's work, you may profoundly disagree with it. But it will never leave you indifferent, and it will always make you question, which is why there should be more of it.' -Rose George, Author and journalist This book examines one of the most contested issues facing feminists, human rights activists and governments around the globe - the international sex trade. A generation ago, most people did not know how ubiquitous and grave human trafficking was. Now many people agree that the \$35.7 billion business is an appalling violation of human rights. But when confronted with prostitution, many people experience an odd disconnect because prostitution is shrouded in myths, among them the claims that ôprostitution is inevitable,ô and ôprostitution is a job or service like any other.ô In Not a Choice, Not a Job, Janice Raymond challenges both the myths and their perpetrators. Raymond demonstrates that prostitution is not sex but sexual exploitation, and that legalizing and decriminalizing the system of prostitutionûas opposed to the prostituted womenûpromotes sex trafficking, expands the sex industry, and invites organized crime. Specifically, Raymond exposes how legalized prostitution in the Netherlands, Germany, Australia, and Nevada worsens crime and endangers women. In contrast, she reveals, when governments work to prevent the demand for prostitution by prosecuting pimps, brothels, and prostitution usersûas in Norway, Sweden, and Icelandûtrafficking does not increase, women are better protected, and fewer men buy sex. Raymond expands the boundaries of scholarship in women&E;s studies, making this book indispensable to human rights advocates around the world.

This book examines one of the most contested issues facing feminists, human rights activists and governments around the globe - the international sex trade. For decades, the liberal left has been conflicted as to whether sex workers rights' activists or abolitionists hold the correct view, and debates are ongoing as to who holds the key to the solutions facing the women and girls involved.

How people move from deviant to conventional lifestyles is an issue that has attracted considerable interest over the past few years. However, much of this work has focused on men desisting from crime. This book provides one of the first examinations of desistance which is centred on women and, more specifically, how they exit prostitution.

Kajsa Ekis Ekman exposes the many lies in the 'sex work' scenario. Trade unions aren't trade unions. Groups for prostituted women are simultaneously groups for brothel owners. And prostitution is always presented from a woman's point of view. The men who buy sex are left out.

Selling Sex in the City offers a worldwide analysis of prostitution since 1600. It analyses more than 20 cities with an important sex industry and compares policies and social trends, coercion and agency, but also prostitutes' working and living conditions.

Never before have prostitution, strip clubs and pornography been as profitable, widely used or embedded in mainstream culture as they are today. How society should respond to the rise of the sex trade is shaping up to be one of the Twenty-First Century's big questions. Should it be legal to pay for sex? Isn't it a woman's choice whether she strips for money? Could online porn warping the attitudes of a generation of boys? An increasingly popular set of answers maintains that prostitution is just work, porn is fantasy, demand is inevitable: so fully legalise the sex trade and it can be made safe. Kat Banyard contends that these are profoundly dangerous myths. Sexual consent is not a commodity, objectification and abuse are inherent to prostitution, and the sex trade poses a grave threat to the struggle for women's equality. Skillfully weaving together first-hand investigation, interviews and the latest research, Pimp State powerfully argues that sex trade myth-makers will find themselves on the wrong side of history.

How the law harms sex workers—and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In Revolting Prostitutes, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long been contentious. Speaking from a growing global sex worker rights movement, and situating their argument firmly within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.
