The Loving Stitch is an engaging history of a subject never before explored but familiar to many New Zealanders. Heather Nicholson's knowledge of knitting and spinning is formidable but she also knows how to tell a good story and has a keen sense of humor. The Loving Stitch presents a chronological account of antipodean knitting, which is also a history of the domestic lives of women, of their resourcefulness, their talent and sociability. She follows the growth of pattern books, the role of knitting for troops in the two world wars, knitting in the Depression and the recent interest in art knitting. She also explores the different items produced by the skilled knitter, from jerseys and guernseys to counterpanes, socks and stockings, and a scarf that stretched right round Parliament Buildings. The book also includes material on spinning and on local wool mills, as well as general good advice drawn from the personal experience of hundreds of knitters and spinners. The Loving Stitch is impeccably researched, it is full of characters, memories and advice, and it is superbly illustrated.

The needle arts are traditionally associated with the decorative, domestic, and feminine. Stitching the Self sets out to expand this narrow view, demonstrating how needlework has emerged as an art form through which both objects and identities – social, political, and often non-conformist – are crafted. Bringing together the work of ten art and craft historians, this illustrated collection focuses on the interplay between craft and artistry, amateurism and professionalism, and re-evaluates ideas of gendered production between 1850 and the present. From quilting in settler Canada to the embroidery of suffragist banners and the needlework of the Bloomsbury Group, it reveals how needlework is a transformative process – one which is used to express political ideas, forge professional relationships, and document shifting identities. With a range of methodological approaches, including object-based, feminist, and historical analyses, Stitching the Self examines individual and communal involvement in a range of textile practices. Exploring how stitching shapes both self and world, the book recognizes the needle as a powerful tool in the fight for self-expression.
