What we would remind you about any coin price guide is that they are just guides. All coin values will vary depending on what is currently in demand and available. It's basic economics. Coin price guides are great for giving you a quick benchmark of the potential rarity of a coin, but they alone won't tell you exactly what your coin is worth. Also, if selling coins to a coin dealer, remember that they will expect to make a profit on the deal because that's how they make their livelihood.

Bitcoin is the world's first cryptocurrency which works on a completely decentralized network known as the blockchain. The blockchain network consists a link of blocks that are secured using cryptography and record all the transactions. Bitcoin was first presented to the world in 2009 by an anonymous identity known as Satoshi Nakamoto.
