Sound Reproduction: The Acoustics and Psychoacoustics of Loudspeakers and Rooms, Third Edition explains the physical and perceptual processes that are involved in sound reproduction and demonstrates how to use the processes to create high-quality listening experiences in stereo and multichannel formats. Understanding the principles of sound production is necessary to achieve the goals of sound reproduction in spaces ranging from recording control rooms and home listening rooms to large cinemas. This revision brings new science-based perspectives on the performance of loudspeakers, room acoustics, measurements and equalization, all of which need to be appropriately used to ensure the accurate delivery of music and movie sound tracks from creators to listeners. The robust website (www.routledge.com/cw/toole) is the perfect companion to this necessary resource.

The seminal artist's recent art and poster works, and his triumphant return to his street-art roots with murals, all in work never before published. Shepard Fairey rose out of the skateboarding scene, creating his "Andre the Giant Has a Posse" sticker campaign in the late '80s, and has since achieved a mainstream recognition that most street artists never find. Fairey's "Hope" poster, created during Obama's 2008 presidential campaign, is arguably the most iconic American image since Uncle Sam. Fairey has become a pop-culture icon himself, though he has remained true to his street-art roots. OBEY: Covert to Overt showcases his most recent evolution from works on paper to grander art installations, cross-cultural artworks, and music/art collaborations. The book also includes his ubiquitous streetwear and chronicles his return to public artworks. His signature blend of politics, street culture, and art makes Fairey unlike any other subculture/street artist working today. This book showcases the significant amount of art he has created the last several years: street murals, mixed-media installations, art/music events, countless silk screens, and work from his extremely successful OBEY brand.

ticket, she jumps at the chance. Her younger brother Ivar accompanies her, and they can't wait to join their brother Rune and his family in the northern forests of Minnesota. Signe and Rune Carlson are thrilled to welcome Nilda and Ivar to America, but life on the farm remains a struggle. Though Gerd has softened and grown to love the Carlson family, Einar is still harsh and unforgiving, obsessed solely with felling as many trees as possible. Rune is trying to build a new home for his wife and children, but Einar refuses to help and forbids anyone from the nearby community from stepping foot on his land. What dark secret must lie in his past to have caused him to isolate himself--and anyone living under his roof--in this way? When a tragedy lays the truth bare, the Carlsons and Strands will have to come together like never before and become a true family.

This volume concerns several aspects of China's changing market based economy. These include commercial contract enforcement, corporate structures, competition law and other issues related to China's membership in the WTO. In the past two decades, the rapid integration of China's economy into the global marketplace has created obligations and expectations of non-discrimination and regulatory transparency in domestic markets. The Chinese government has responded by demanding better governance within major companies, market sectors and public administration generally. However, as the articles in this volume show, it has struggled to find a corporate structure capable of absorbing external equity investment and participation but still amenable to direct and indirect state guidance. It has also moved cautiously in creating legal controls over unfair competition. Moreover, the protection of state owned enterprises, which serve as vehicles for domestic economic, social and political policy, has been a recurring issue in China's WTO trade disputes.
